PROFILE

AI Engineering graduate with distinction and hands-on experience building backend services, APIs, data-driven applications, and full-stack software. Developed a .NET Web API with Azure OpenAI and Cosmos DB and contribute to a production-scale open-source editor. Looking for a junior C#/.NET or backend role where I can contribute and grow with experienced engineers.

TECHNICAL EXPERIENCE

Software Engineer · Paid Client Project

2026

Apollooon 24-Hour Run System · Belgium

- Built a local-first race operations platform with a typed API, SQLite persistence, realtime Socket.IO updates, and an Electron desktop deployment.
- Implemented operator workflows, imports and exports, LAN discovery, realtime synchronisation, automated tests, and replicated hot-standby failover.

AI & Software Engineering Intern

Feb–Jun 2026

2Ai IPCA · Barcelos, Portugal

- Engineered a maintainable medical-imaging pipeline that converts DICOM studies into validated structured JSON.
- Designed resumable batch processing, validation queues, review tooling, automated tests, and cross-platform technical documentation.
- Optimised a source-video matching workflow from roughly 21 hours to 23 minutes on a representative run.

RELEVANT PROJECTS

Event Chatbot for XPO Group · .NET & Azure

Built a C#/.NET Web API for vector embeddings and semantic search, integrating Azure OpenAI and Cosmos DB. Connected it to a Next.js client and Python ingestion pipeline in a team project for an external client.

Advanced Software Engineering · C#

Applied object-oriented programming, interfaces, inheritance, generics, LINQ, asynchronous programming, repository patterns, unit testing, and layered application design throughout a semester of practical assignments.

Athas Code Editor · Open-Source Maintainer

Contribute across React/TypeScript and Tauri/Rust. Merged work includes C# language support, image diffing, Linux UI improvements, resource-leak fixes, and an LSP race-condition fix.

EDUCATION

Professional Bachelor in Multimedia & Creative Technologies

AI Engineering track ·

Howest

Sep 2023–Jun 2026

Graduated with distinction

Advanced Software Engineering

· MLOps 18/20 · International

Internship 16/20

SKILLS

C# & .NET

C# · .NET · ASP.NET Core
Web API · LINQ · async/
await · OOP · unit testing

BACKEND & DATA

REST APIs · SQL/
PostgreSQL · SQLite ·
Cosmos DB · Python ·
FastAPI

CLOUD & TOOLING

Azure ML · Azure OpenAI ·
Cosmos DB · Docker ·
GitHub Actions · testing

FRONTEND

TypeScript · React ·
Next.js · HTML/CSS

LANGUAGES

Dutch (native) · English
(C1) · French (B1–B2)
