

PROFILE

I'm driven by solving complex problems with efficient and scalable solutions. I have a strong interest in software development and AI, particularly in understanding how systems work under the hood. I enjoy collaborating with others, exchanging knowledge, and building practical technology that improves everyday life.

EDUCATION

Professional Bachelor Multimedia & Creative Technology - AI Engineering

Howest

09/2024 – 07/2026 | Kortrijk

SKILLS

Python

C#

Rust

GIT

Linux
